VEDAMIND AI

Ayurvedic Lifestyle Intelligence System

By Rishika Chaudhary
23BTM013

WHY VEDAMIND?

- Lifestyle disorders build silently
- Advice is generic and ignored
- Users don’t feel future consequences
- Existing apps focus on data, not awareness

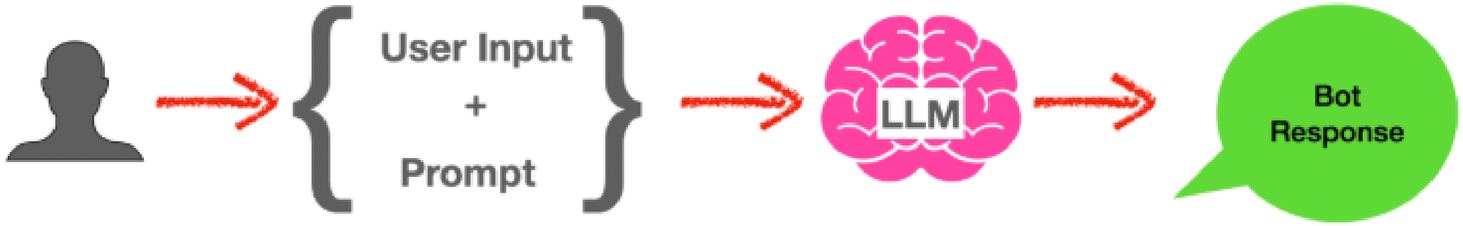
Need: A system that helps people understand lifestyle impact before damage happens.

SOLUTION?

VedaMind AI
• AI-powered lifestyle awareness system
• Based on Ayurvedic reasoning (non-clinical)
• Focuses on habits, not diseases
• Encourages reflection instead of fear

Core Idea:
Daily choices → patterns → long-term outcomes

SYSTEM ARCHITECTURE



How It Works

- Frontend: HTML, CSS, JavaScript
- Backend: FastAPI (Python)
- AI: OpenAI API
- Session-based memory
- Voice interaction & PDF export

FEATURES

FEATURE 1

Smart Ayurvedic Chat

- Users ask about sleep, diet, stress, routine
- Structured Ayurvedic explanations
- Covers root cause, short-term & long-term impact
- No medicines, no diagnosis
- Safe and educational

FEATURE 2

Session Memory + What-If Simulator

Session Memory
- Remembers last 10 interactions
- Improves response relevance

What-If Simulator
- Explores future impact of habits
- Simulates 7 days, 3 months, 1 year
- Makes consequences tangible

FEATURES

FEATURE 3

Story-Based Lifestyle Simulator

Your Lifestyle Path

- Interactive, choice-based story
- Simulates one full day
- Real-life decisions:
  - Sleep
  - Morning routine
  - Breakfast
  - Stress handling
  - Evening habits

Turns habits into lived experience.

FEATURE 4

Gentle Correction Engine

- Detects draining choices
- Provides small, realistic suggestions
- Non-judgmental
- Focuses on prevention

Example:
“Move bedtime 20 minutes earlier for 3 days.”

FEATURES

FEATURE 5

Voice & Accessibility

Human Interaction Layer

- Speech-to-Text for queries
- Text-to-Speech for responses
- Indian English voice support
- Improves usability & engagement

FEATURE 6

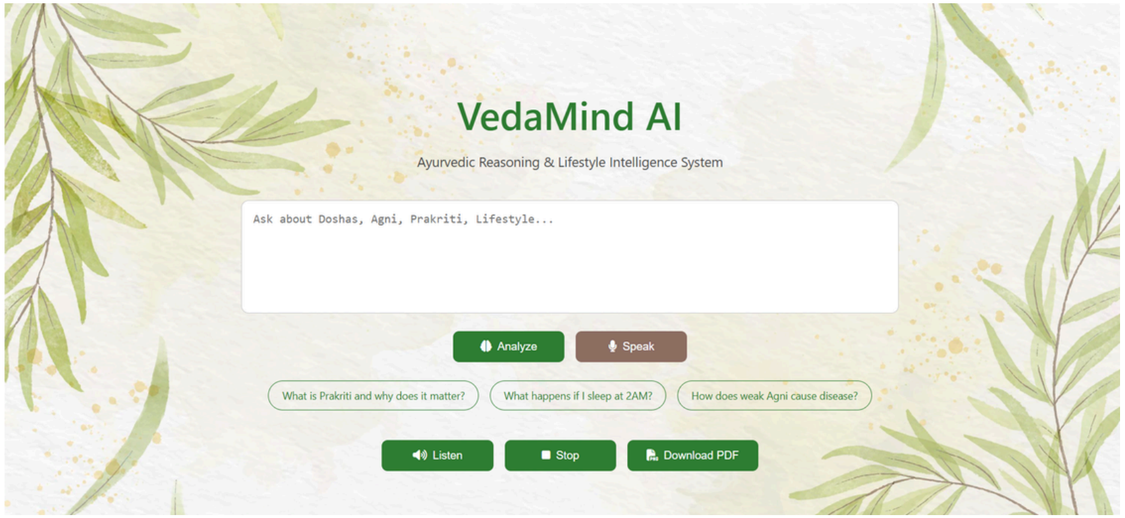
Reports & UI Design

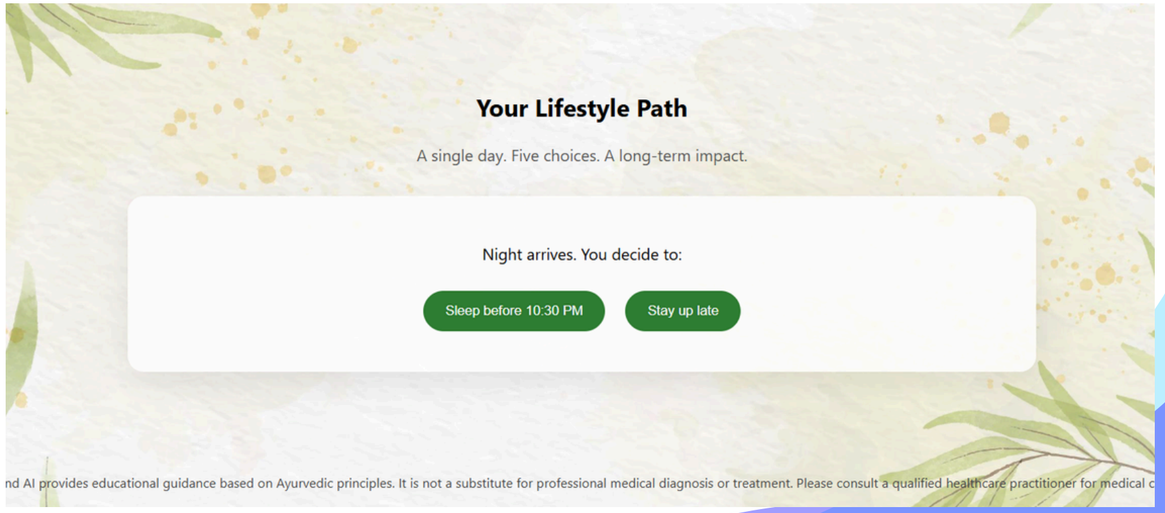
Reports

- Download chat & simulations as PDF

UI Philosophy

- Calm, Ayurvedic theme
- Progressive interactions
- Clean, focused design





WHAT MAKES VEDAMIND UNIQUE

- Lifestyle intelligence, not diagnosis
- Simulation instead of static advice
- · Storytelling for self-reflection
- Cultural wisdom + modern AI
- Ethical, preventive approach

CONCLUSION

Conclusion
VedaMind helps users experience the impact of daily habits before they become problems.

Future Scope
- Long-term memory
- Weekly lifestyle summaries
- Visual progress tracking

THANK YOU!
